JUNIOR SOFTWARE DEVELOPER

As a young programmer, I spend my free-time contributing towards open-source projects on GitHub. My coding journey began in high school where I established a solid foundation in IT utilizing the programming language Delphi. Throughout my high school career I developed numerous systems but my highlight would be my final year project: a library system built in Delphi that incorporated Microsoft Access for a relational database. Currently in University: I continue to refine my coding skills through selected modules and personal projects. I have equipped myself with tools such as Botpress, C#, JavaScript and MySQL to name a few. My key project now is [my website](#) which I have integrated a chatbot that performs automated actions through webhooks. My social skills have been honed through various leadership positions I have earned.

KEY SKILLS

Analytical Thinker

Botpress [Bot Integration]

Business Orientation

C# [Windows Applications]

Database Development [MySQL]

GitHub [Code Collaboration]

Stakeholder Engagement

Team Leadership

Web Applications Development

EXPERIENCE

NMU Computer Society

May 2024 - Present

Events Coordinator

The Nelson Mandela University Computer Society is branch of the School of IT that fosters innovation, technological growth and computing advancement amongst its members and the Nelson Mandela University Community. As the Events Coordinator, I facilitate the planning of events in partnership with the respective stakeholders such as S4 Integration for our annual hackathon. During my tenure, there has been a 5% growth in attendance to respective events.

Oasis Infobyte

June 2024 - July 2024

Junior Web developer Intern

Oasis Infobyte offered me the honor of partaking in their virtual internship for a period of one month. During this experience I was tasked with working on different web development projects and submitting them for review through GitHub for the web development team to judge. Utilized technologies include HTML, CSS, JavaScript and GitHub for version control.

Care Haven Psychiatric Centre

June 2018 - July 2018

Volunteer

Care Haven is an old age home located in Central, Gqeberha, Eastern Cape. In my voluntary hours, I was tasked with helping in the community kitchen, garden work and keeping the elderly company.

EDUCATION & CERTIFICATIONS

Bachelor of Information Technology

Awards: Merit award X 2

Golden Key International Honor Society Candidate

Victoria Park High School Learner

Awards: Top academic 10

Head Prefect ~ Head Boy

President of the Representative Council of Learners

Certifications

Cisco Introduction to Networking

Cisco Introduction to Cybersecurity

FameLab Talking Science Attendee

EXTRACURRICULAR ACTIVITIES

Computer Society Executive

Events Coordinator

Member of the Dev community

Open-source contributor
